

Temi Adekunle

Product Designer

08106212289 Addtemi270@gmail.com

PROFESSIONAL SUMMARY

Product designer with a bias toward clarity, working across early-stage startups and product teams. Recent work spans recruitment, logistics, and digital banking products — from research and information architecture through visual design, prototyping, and design-system architecture. A biochemistry background shapes how I approach structure, process, and cause and effect.

EXPERIENCE

Lead Designer / Product Operations Collaborator · Enviodeck Mar 2026 — Present

- Designing 100+ screens across order booking, delivery tracking, driver workflows, and payment flows.
- Built a 50+ component design system establishing the product's visual language, component hierarchy, and interaction patterns.
- Partnering on product strategy, user research synthesis, and design workflows.

Product Designer / Founder-Side Operator · Candidote Aug 2025 — Mar 2026

Fully remote — 3-person team

- Designed 80+ screens as the sole designer — onboarding, job listings, candidate management, and hiring workflows.
- Built a 40+ component design system from scratch — reusable patterns, variants, and documentation — that enabled rapid iteration.
- Shaped product strategy and roadmap alongside the founder, shipping design decisions directly into development.
